ETEM
EXPERTS IN ALUMINIUM SYSTEMS

The **Facade** as Architectural Expression

The ETEM ZEBRA cladding system reimagines façade design, seamlessly integrating aesthetics, technology and functionality into a complete architectural solution.

Combining durability, energy efficiency, and outstanding design versatility, it opens up new possibilities for both exterior and interior applications.

From commercial developments and office environments to contemporary residential projects, ZEBRA shapes façades defined by clean geometry, strong identity, and enduring appeal.

Built to Last
Weather and
Corrosion Resistance

Endless Possibilities
For Façades, Doors,
Fencing Systems &
Interior Decorations

Light as an Architectural Element.

LED lighting is incorporated into the geometry of the profiles, highlighting their three-dimensional structure and enhancing the perception of depth.

Available in HARMONY & EPIC typologies

03

“ *Light is the theme, and light creates ambience and feel of a place, as well as the expression of a structure* ”

— Le Corbusier —

zebra
Premium **Cladding** Systems

HARMONY

Balanced, clean lines that create a calm and elegant surface.

EPIC

Stronger geometry and enhanced depth for a bold and expressive result.

WAVE

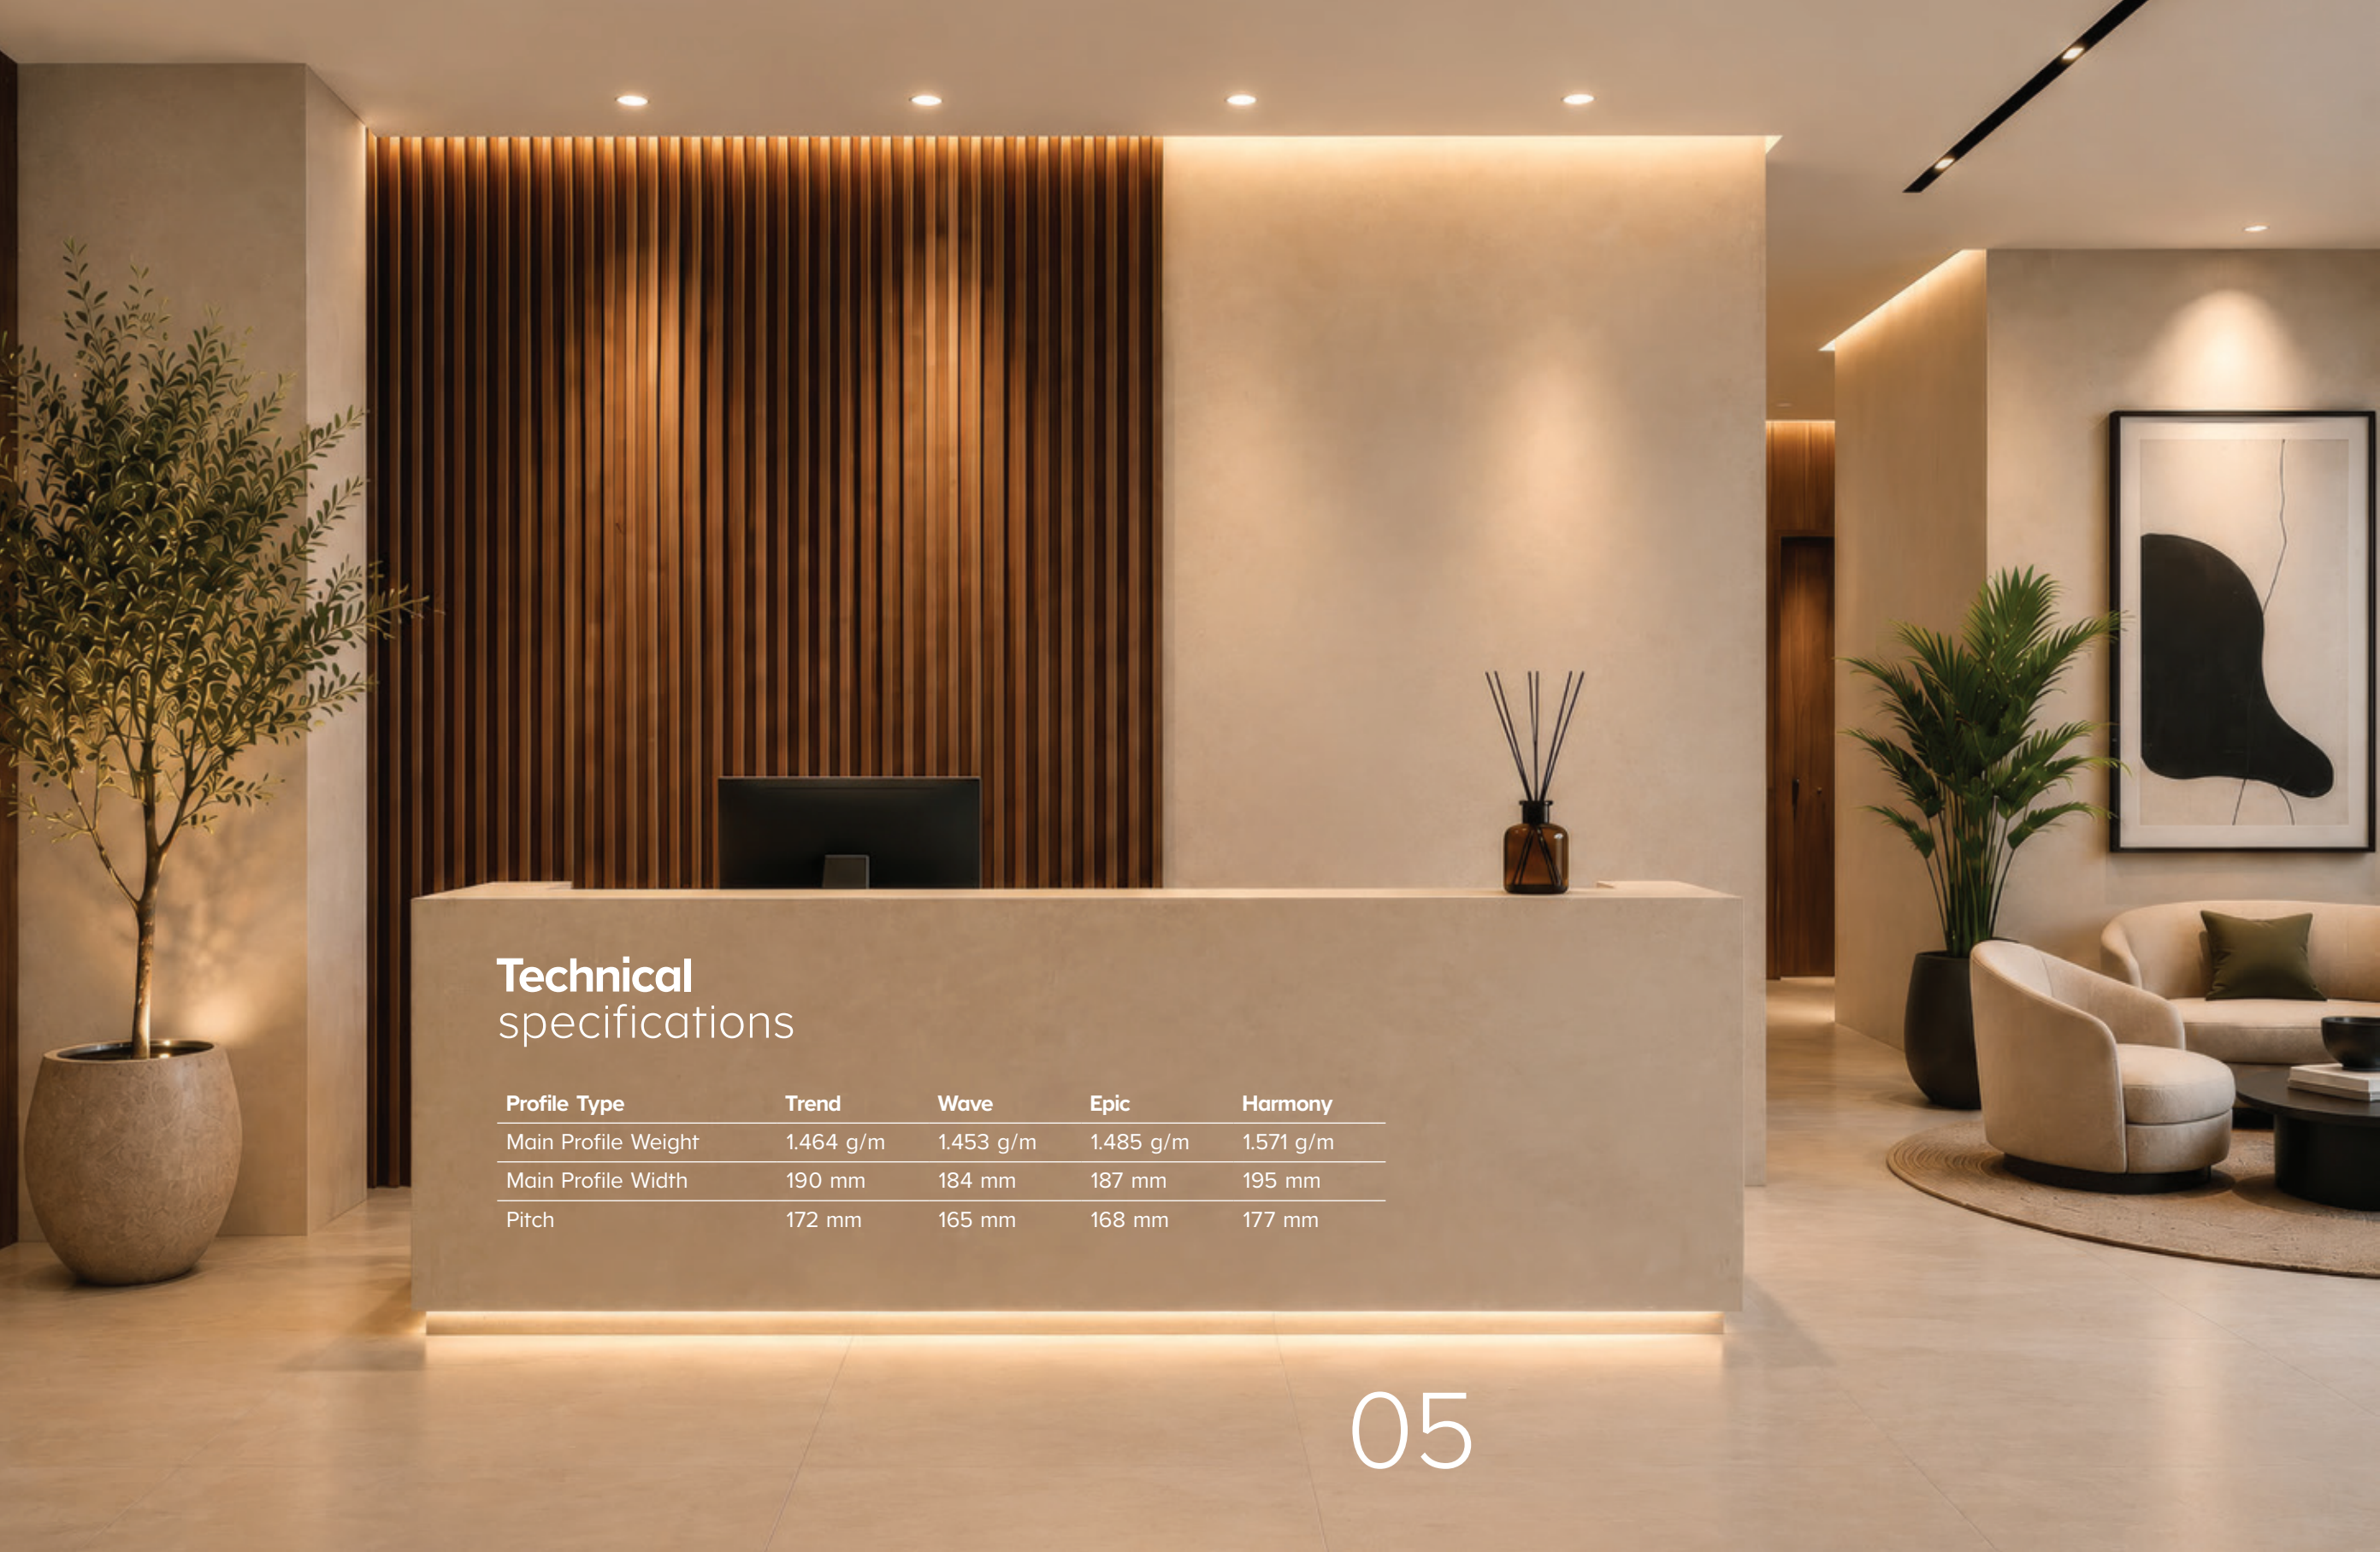

A fluid, undulating form that brings movement and a distinctive character to the structure.

TREND

Dense, rhythmic repetition for contemporary linear architectural compositions.

Four Typologies. Countless Compositions.

04

Technical specifications

Profile Type	Trend	Wave	Epic	Harmony
